Dear Mr Kümbül,

Your complimentary RAL K1 booklet – just a hint of the color support available from AkzoNobel.

Sign manufacturing is a complex and challenging job. Especially when brands travel widely and multinationals impose hugely demanding color standards for a multitude of signage materials.

The enclosed RAL K1 color booklet is just one of many useful AkzoNobel tools we offer. Each is designed to make your task easier and colors more consistently accurate. Wherever your signage appears.

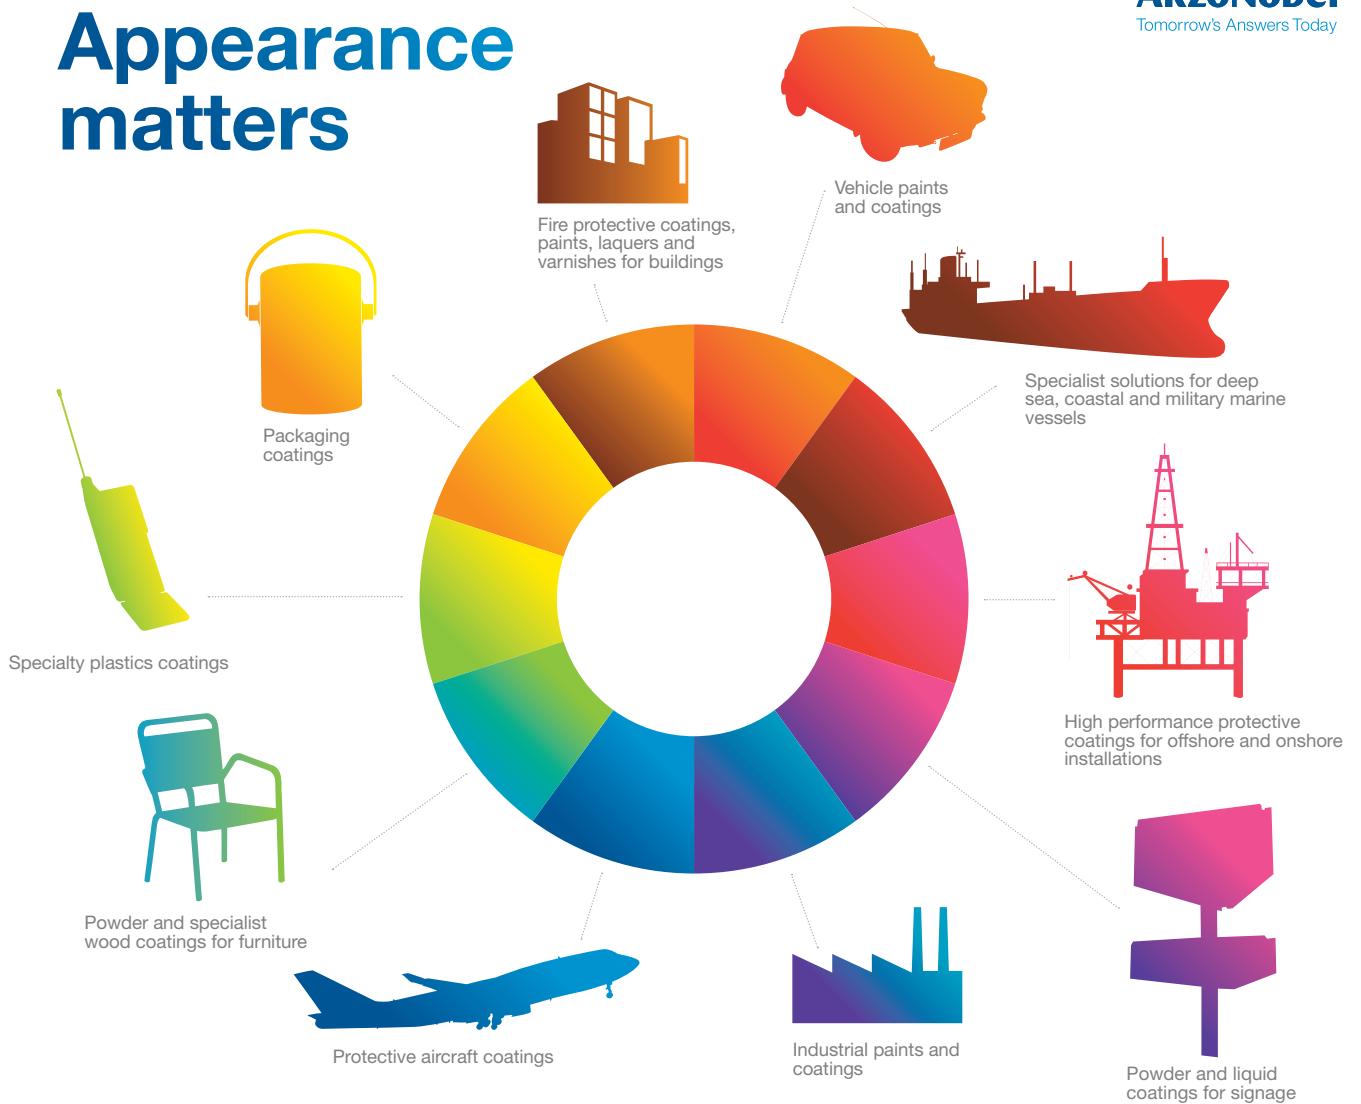

As the world's largest paint and coatings company, no one is better placed to help you meet client requirements to the letter and deliver complete consistency.

Guaranteed color accuracy. Guaranteed results.

Partner with AkzoNobel Global Image Solutions and you'll benefit from more than just our expertise to help you prepare color samples for client presentation precontract.

Appearance matters

High quality AkzoNobel products and services include:

Paints, lacquers, varnishes and solvent-free products

Everything you need to decorate and protect your building surfaces - inside and out.

Industrial paints and coatings

From coil-coated sheet and consumer goods, to sports equipment and wood care products - talk to us and we'll make a plan.

High performance protective coatings

Get outstanding fire protection across a wide range of industries both offshore and onshore. You'll find our coatings on Sydney Harbor Bridge, the London Eye and the Beijing Olympic complex, plus countless other steel and concrete structures.

Vehicle paints and coatings

We play a leading role in almost every respray. It's why we're a first choice partner for distributors, body shops, fleet owners, automotive suppliers and major bus and truck companies.

Specialist solutions for deep sea coastal and military marine vessels

Make us your next stop for building, repairs and maintenance using TBT-free, antifouling, abrasion-resistant coatings, ballast tank coatings and fouling control systems.

Powder coatings

Our solvent-free solutions are designed for almost any surface - from metal furniture, window frames and radiators, to pipes, cars, even wood and plastic.

Packaging coatings

Keep food and drink fresher for longer with our huge range of hi-tech internal and external coatings. We've been understanding customer packaging needs for more than 90 years.

Protective aircraft coatings

If you're facing extremes of temperature, UV radiation and vibration, these high performance products are for you. Equipment manufacturer approval means we can maintain and repair all aircraft types.

Specialty plastic coatings

Ask us about coating solutions for consumer electronics, sports and leisure products, as well as cosmetics packaging and lifestyle items. We supply design advice too.

Signage

We look forward to showing you the way in retail outlets, offices and factories.

You'll gain valuable support with all aspects of order management and help coordinating all parties involved, to achieve the right color using the right technology.

If you would like to talk to us about any of your specific requirements, please call me at any time on +44 1235 442 115 or email me at global.image.solution@akzonobel.com.

We look forward to meeting you.

Yours sincerely
