

Xperience 3: Mission statement generator

The me-too application for your business relations: the mission statement generator. Thirty questions lead the user to a ready-to-use motto for his or her organization. It has never been so easy to formulate a vision, mission or strategy! And of course this question and answer app can be used in countless ways. Building a dream home, for example that completely meets the user's requirements and family situation. Or a virtual crystal ball that predicts the future using a person's distinguishing features.

Professional, up-to-date and convenient

The success of this app: suitable for professional purposes, always up-to-date and convenient to use. What is required on your part: consult with A2rt about an applicable private label app. The costs: at an average of € 1,500 per dynamic screen*, around € 4,500. Production time**: following the green light, the demo will be ready after approximately 15 working days. Of course, this is only an indication as we always build our customers' application completely according to their specifications.
